Summary

MERN Stack Developer with 2+ years of experience building responsive, scalable, and high-performance web applications using React.js, JavaScript (ES6+), and modern UI frameworks. Experienced in developing full-stack applications with Node.js, Express.js, and MongoDB, implementing JWT authentication, RESTful APIs, and reusable component architectures. Skilled in creating clean, maintainable code, integrating backend services, and deploying production-ready applications using modern cloud platforms.

Education

Bachelor of Science in Software Engineering

Islamia College University - Peshawar, Pakistan (September 2018 - May 2023)

Work Experience

Front-End Developer

Robx.AI | Feb 2024 - Dec 2025

- Developed dynamic and responsive web applications using React.js, Tailwind CSS, and modern JavaScript.
- Built reusable UI components to improve development efficiency and ensure design consistency across projects.
- Integrated REST APIs and backend services to seamlessly display dynamic application data.
- Implemented secure authentication flows and optimized frontend UI performance.
- Collaborated with designers and backend engineers to deliver scalable product features.
- Built 15+ reusable UI components, reducing development time by 20%.

Work Experience

Real Estate Web Application Frontend Project

- Technologies: React.js, JavaScript, HTML5, CSS3, Tailwind CSS.
- Developed a modern Real Estate Web Application UI using React.js focusing on a responsive and high-performance architecture.
- Designed and implemented clean property listing interfaces to display real estate information efficiently.
- Applied modern CSS styling and layout techniques using Tailwind CSS and Flexbox.
- Optimized page structure and loading performance using native React.js framework features.
- Deployed the project via GitHub Pages for public accessibility and live demonstration.
- Live Demo: <https://bashirkhan11.github.io/task-two/>

Complaint Management System

Final Year Project

Technologies: Node.js, Express.js, MongoDB, JWT Authentication, Tailwind CSS.

Developed a full-stack web application enabling users to seamlessly submit, manage, and track complaints. Implemented secure user authentication using JSON Web Tokens (JWT) and established protected API routes. Built robust RESTful APIs to handle CRUD operations for complaint data and user accounts.

Designed a responsive dashboard UI using Tailwind CSS for real-time status monitoring.

Integrated a MongoDB database backend to securely store structured categories and user information. Collaborated with team members on requirement analysis and system design.

IT SKILLS

- Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Context API.
- Backend: Node.js, Express.js, REST API Development, JWT Authentication, Axios.
- Database: MongoDB.
- Tools & Platforms: Git, GitHub, VS Code, Postman, NPM, Vercel, Render.
- Development Concepts: Component-Based Architecture, Responsive Design, API Integration, Cross-Browser
- Compatibility, UI/UX Best Practices.

SOFT SKILLS

- Punctual & Time Management
- Computer Troubleshooting
- Teamwork & Collaboration
- Communication Skills
- Problem Solving
- Quick Learner
- Microsoft Office Skills
- Adaptability

LANGUAGE

English - Fluent

Urdu - Fluent

Arabic - Basic
